Depling: why

From Joakim Nivre Opening of Depling in 2015 ...

It’s Time for Dependency!

Over the last two years this trend continued both in Linguistics and in NLP
Depling: why

• The mission of Depling:
  – Bringing together linguistics and NLP
  – Promoting a multilingual perspective on linguistics and NLP

• The focus of Depling:
  – The use of dependency structures in linguistic description, especially in a cross-linguistic perspective
  – The modelling of lexical phenomena and their role in the dependency view of linguistics
  – Design and construction of dependency-based resources for a wide range of typologically distant languages or language varieties
  – The application of dependency analyses to natural language processing

first shared task

20-21-22 September

IWPT 2017
EPE 2017

The first Shared Task on “Extrinsic Parser Evaluation“

Task sponsored jointly by Depling and the 15th International Conference on Parsing Technologies (IWPT 2017)

“Bridge event” seeking to provide better estimates of the relative utility of different types of dependency representations for a variety of downstream applications that depend heavily on the analysis of grammatical structure
Invited Contribution

Wednesday Sept 20, 10.30-11:00

Dan Zeman (Charles University, Prague)

Report on the CoNLL 2017 Shared Task on “Multilingual Parsing from Raw Text to Universal Dependencies”
Joint Depling & IWPT Panel Discussion
Wednesday Sept 20th h 4:30 pm

Topics

• How can we make parsing research relevant to linguistic theory (and vice versa)?
• What communities other than linguistics and parsing should we try to reach?
• Future of Depling+IWPT: what are advantages/disadvantages? should we have this again? in what format?
• Impact of UD on linguistics and parsing research
• Other relevant topics by conference participants?

Panelists:
Keynote speakers and chairs from Depling, IWPT and EPE
Thank you for attending Depling 2017
